Night Lights

Maxell are pleased to announce the arrival of the new **NIGHT LIGHT** series, comprising of 3 high quality, warm white, plug-in lights.

Each night light has its own unique feature, and has a 2 pin plug suitable for continental Europe. The warm white glow of the Bear acts as a child friendly sleeping aid, for a peaceful, comforting night. The Motion Sensor night light that turns on when triggered, with an automatic on/off function, ensures a safe night. Lastly, Maxell's USB Output Charger night light, is a dual purpose night light, featuring one 2.1A USB port, ideal for charging a device whilst the automatic night light sensor is still in use. The new Night Lights all feature an auto function, which turns on when dark.
